Passed at the June 19, 2017,
Community Development Committee
and incorporated into the substitute

Committee Amendment No. 1
Proposal No. 2017- 28
Green

June 19, 2017

To: Committee Members
From: Councilmember Derek Young
Hearing Date: June 19, 2017
Attachment: None
Subject: Amendments to Proposal No 2017- 28 (Low Impact Development)

The proposal includes language allowing the Planning and Public Works Department to waive sidewalk requirements in certain circumstances. Pedestrian connectivity is an important transportation goal of Pierce County and I believe that a discussion about granting the Department the ability to waive sidewalk requirements should be a part of a larger policy discussion on the issue outside of this proposal. Accordingly, I propose that the waiver language be removed from the proposal as follows:

1. On page 4 of Exhibit D to the proposal, delete Footnote 13 to Table 17B.20.005-1 in its entirety along with corresponding references to the footnote in the table.
2. On page 6 of Exhibit D to the proposal, delete Footnote 14 to Table 17B.20.005-2 in its entirety along with corresponding references to the footnote in the table.
